Definition of Forces

Please use these definitions when referring to a force that are applied to the unit.

EUROPE

United Kingdom
 Danaher Motion
 Chartmoor Road, Chartwell Business Park
 Leighton Buzzard, Bedfordshire
 LU7 4WG, United Kingdom
 Phone: +44 (0)1525 243 243
 Fax: +44 (0)1525 243 244
 E-mail: sales.uk@danahermotion.com

Germany
 Danaher Motion GmbH
 Sales Office North
 Wacholderstr. 40-42
 40489 Düsseldorf
 Germany
 Phone: +49 (0) 203 9979 214
 Fax: +49 (0) 203 9979 3214
 E-Mail: iris.tolusch@danahermotion.com

Danaher Motion GmbH
 Sales Office South West
 Brückenfeldstraße 26/1
 75015 Bretten
 Germany
 Phone: +49 (0) 7252 97390 56
 Fax: +49 (0) 7252 97390 55

Linear Units Quick Selection Guide

Product Groups

Danaher Motions linear units are divided in to seven product groups depending of the drive and guiding method being used.

Ball screw driven - ball guided units

Units designed for high thrust, payload, precision and stiffness.

- Force up to 12000 N
- Repeatability down to 0,005mm

Ball screw driven - slide guided units

Low cost units for high thrust applications and demanding environments.

- Durable guide system
- Washdown protected version

Belt driven - ball guided units

Smooth running units for high speed, acceleration and load requiring a long lifetime.

- Speed up to 5 m/s
- Acceleration up to 40 m/s²

Belt driven - slide guided units

Units for applications requiring smooth travel, high speed, high acceleration and low maintenance.

- Cost efficient guide system
- Chemically protected versions

Belt driven - wheel guided units

Units for high speed, high acceleration, smooth motion and medium to high loads.

- Speed up to 10 m/s
- Acceleration up to 40 m/s²

Linear lifting units

Units for lifting applications that often are used in X-Y configurations in combination with other linear units.

1. Velocity
2. Acceleration
3. Repeatability
4. Force
5. Load torque
6. Stiffness
7. Guide robustness
8. Cost
9. Maintenance
10. Noise

Linear rod units

Units designed for lifting applications or for the replacement of hydraulic and pneumatic cylinders.
